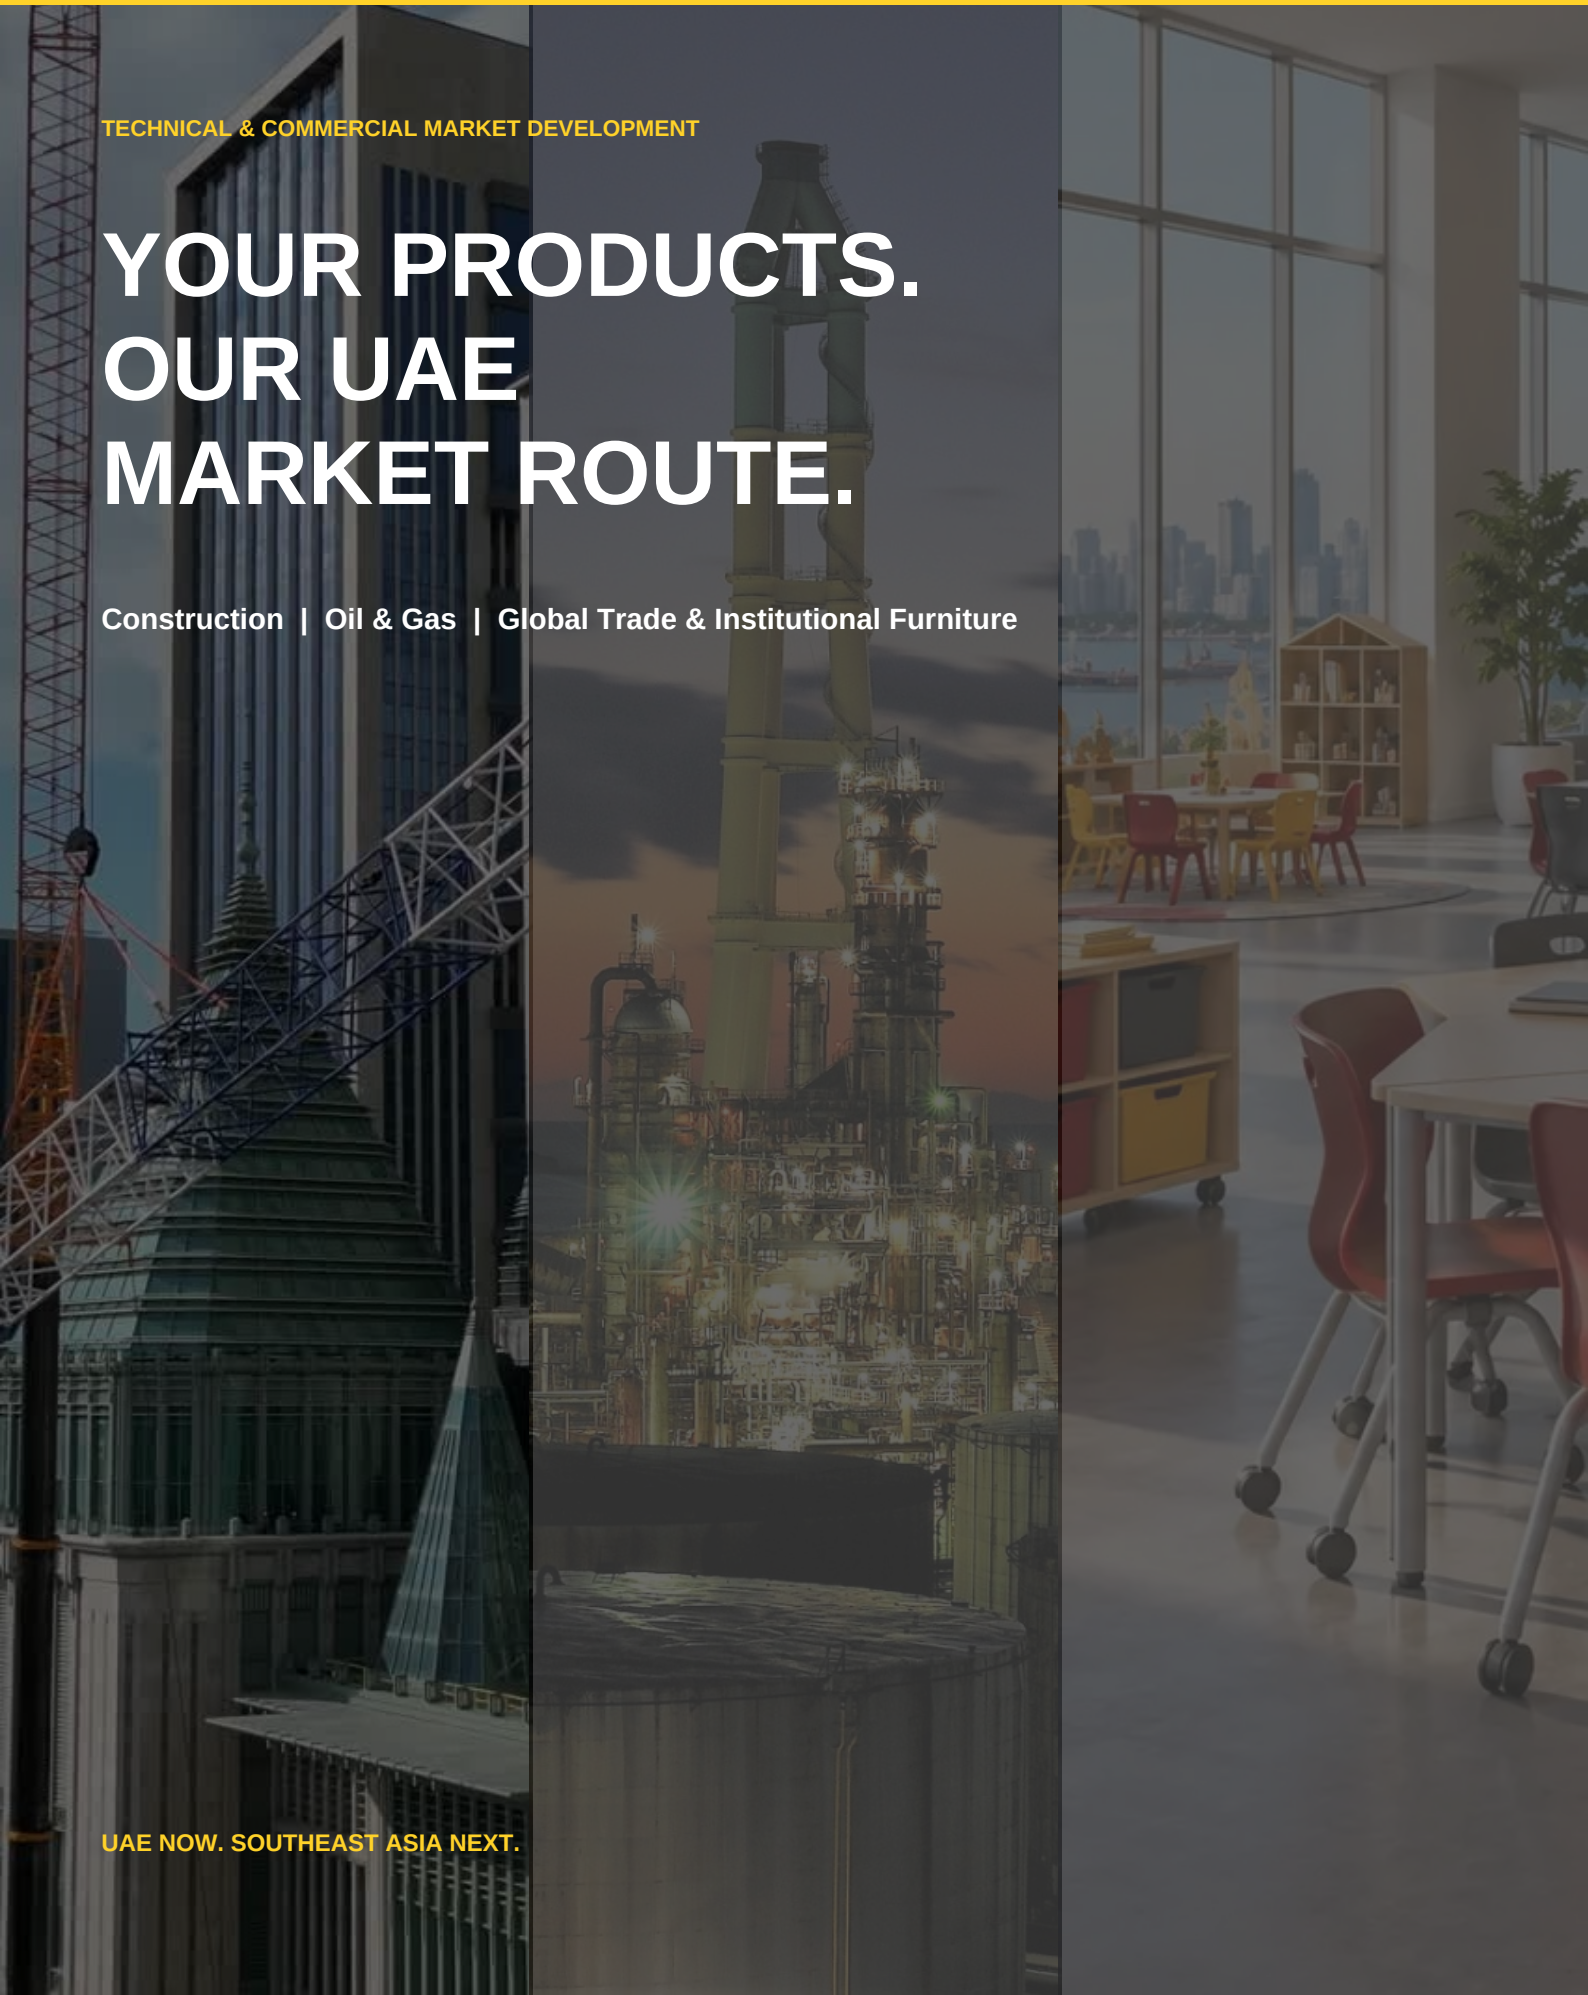
PEAK
FIXING SOLUTIONS

COMPANY PROFILE



TECHNICAL & COMMERCIAL MARKET DEVELOPMENT

YOUR PRODUCTS. OUR UAE MARKET ROUTE.

Construction | Oil & Gas | Global Trade & Institutional Furniture

UAE NOW. SOUTHEAST ASIA NEXT.

WHO WE ARE

A practical bridge to the UAE market.

PEAK Fixing Solutions is a UAE-based technical and commercial market-development platform for international manufacturers and project buyers.

WHAT PEAK IS BUILT TO DO

1. **Technical understanding**
   Start with the application, product capability and documentation.
2. **Commercial connection**
   Create focused routes to relevant consultants, contractors and buyers.
3. **Market development**
   Build qualified discussions around defined product families and territory scope.
4. **Disciplined follow-through**
   Coordinate enquiries, clarifications and agreed next actions.

THREE CONNECTED DIVISIONS

Three sectors. One market route.

Each division has its own product logic, buyer group and technical-commercial pathway.

01

CONSTRUCTION

Fastening, anchoring and building-envelope systems for project-led construction requirements.

- **Anchors and concrete fastening**
- **Façade, roofing, insulation and solar**
- **Tools and technical coordination**

02

OIL & GAS / INDUSTRIAL

Specialist engineering products evaluated against duty, standards and support readiness.

- **Piping, fittings, flanges and valves**
- **Pumps, process equipment and instrumentation**
- **Gaskets, bolting and engineered fastening**

03

GLOBAL TRADE & FURNITURE

Project-based sourcing for education, laboratories, early learning and care environments.

- **Laboratory and classroom furniture**
- **Kindergarten and nursery environments**
- **Coordinated sourcing and delivery planning**

WHAT WE DO

A clear route to market.

PEAK does not replace the manufacturer. We organise the route, context and follow-through needed for a credible opportunity.

01

REVIEW

Product range, standards, references, territory status and differentiators.

02

POSITION

Applications, buyer relevance, documentation and technical value.

03

CONNECT

Relevant consultants, contractors, buyers and project stakeholders.

04

COORDINATE

Enquiries, clarifications, samples, quotations and agreed actions.

05

DEVELOP

Measure progress, refine the route and expand only when ready.

START WITH THE APPLICATION. DEFINE THE TERRITORY. QUALIFY THE OPPORTUNITY.

CURRENT MARKET FOCUS

United Arab Emirates first.

PEAK is concentrating current market-development activity in the UAE, where technical engagement and follow-through can be managed directly.

Abu Dhabi

Energy, infrastructure, construction and institutional opportunities.

Dubai & Northern UAE

Construction, industrial, project sourcing and manufacturer discussions.

Project-led approach

Engagement begins with a defined application, product scope or buyer requirement.

NEXT MARKET EXTENSION

Southeast Asia - next.

A planned second-stage pathway after the UAE model is established and operating readiness is confirmed.

01

MALAYSIA

Industrial, construction and institutional opportunities.

02

INDONESIA

Large project ecosystems and specialist product demand.

03

SINGAPORE

Specification-led, compliance-driven technical markets.

04

VIETNAM

Developing construction and industrial supply opportunities.

PLANNED EXTENSION - NOT PRESENTED AS CURRENT OPERATING COVERAGE

WHY PEAK

A focused technical-commercial partner.

The value is not a long contact list. It is disciplined qualification, technical context and consistent follow-through.

Technical context

Product discussions begin with application, standards and documentation.

UAE focus

Current engagement is concentrated where direct follow-through is practical.

Defined scope

Territory, product families and responsibilities are clarified before activity.

Transparent positioning

No approval, stock, appointment or project award is implied without confirmation.

Long-term intent

Build a credible route before expanding products or markets.

Future-ready

The UAE model creates a foundation for planned Southeast Asian extension.

START A DISCUSSION

YOUR PRODUCTS.
OUR UAE MARKET ROUTE.

Share your product portfolio, territory status, certifications or project brief.
