

TECHNICAL & COMMERCIAL REPRESENTATION

YOUR PRODUCTS. OUR MARKET ACCESS.

UAE & GCC | SOUTHEAST ASIA

A clear route from manufacturer capability to specification, approval, project engagement and sustainable market development.

ENGINEERED. SECURED. DELIVERED.

A MARKET-DEVELOPMENT PARTNER - NOT A TRADER.

Peak represents technically capable manufacturers that need structured local access, disciplined follow-up and a credible project interface.

01

LOCAL MARKET ACCESS

Relationships and project intelligence in the UAE and GCC.

02

TECHNICAL DEPTH

Fixing-focused support from requirement to site coordination.

03

COMMERCIAL FOLLOW-THROUGH

Enquiry qualification, quotation support and opportunity tracking.

04

MANUFACTURER FEEDBACK

Structured reporting, competitor insight and market response.

FOUR STEPS. ONE ACCOUNTABLE ROUTE.

A simple engagement model that keeps manufacturers informed and project teams supported.

01 QUALIFY

Confirm application, substrate, load, environment and commercial fit.

02 POSITION

Align the product range with local standards, sectors and target accounts.

03 ENGAGE

Coordinate consultants, contractors, submittals, testing and quotations.

04 DEVELOP

Track projects, strengthen channels and build repeatable demand.

FIXING SYSTEMS FOR DEMANDING APPLICATIONS.

The portfolio is presented by application and performance need, not as an undifferentiated catalogue.

01

ANCHORING

Mechanical anchors, chemical anchors and concrete screws.

02

BUILDING ENVELOPE

Facade, cladding, roofing and insulation fixings.

03

ENERGY

Solar mounting interfaces and supporting components.

04

INSTALLATION

Professional tools, accessories and application support.

EVIDENCE BEFORE RECOMMENDATION.

Project decisions are supported by relevant documentation, testing and manufacturer coordination.

01

PRODUCT SELECTION

Application-led review of substrate, load and exposure.

02

SUBMITTAL SUPPORT

Datasheets, certificates and approval-document coordination.

03

SITE TESTING

Pull-out test planning, witnessing and result coordination.

04

INSTALLATION SUPPORT

Guidance, training and manufacturer escalation when required.

WHERE PERFORMANCE AND APPROVALS MATTER.

Focused project development across sectors with demanding specifications and multiple decision-makers.

01 COMMERCIAL & RESIDENTIAL

High-rise, mixed-use and major residential developments.

02 INFRASTRUCTURE

Airports, bridges, rail and transport-related packages.

03 INDUSTRIAL & ENERGY

Facilities, utilities, oil and gas, and renewable energy.

04 SPECIALIST ENVELOPE

Facade, roofing, cladding and insulation systems.

BUILT IN THE UAE. DEVELOPED REGIONALLY.

A UAE and GCC foundation with selective partnership development across Southeast Asia.

01

UAE & GCC

Core specification, project and contractor engagement.

02

MALAYSIA

Manufacturer and project-partner development.

03

SINGAPORE

Specialist, specification-led opportunities.

04

INDONESIA & VIETNAM

Selective project and partnership development based on fit.

07 | START A CONVERSATION

BRING THE PRODUCT. WE BUILD THE ROUTE.

Share your product portfolio, certifications, target markets, current distribution structure and preferred cooperation model.
