

INSTITUTIONAL FURNITURE DIVISION

Spaces to learn. Spaces to care.

Project-based furniture sourcing for education and healthcare.

Laboratories, schools, kindergartens, nurseries, universities, clinics and hospitals.

SOURCING MODEL

From requirement to delivery.

A structured project route connects the brief with suitable manufacturers and commercial partners.

Define

Schedule, quantity, standards and budget.

Source

Screen suitable manufacturing options.

Align

Samples, finishes and quotations.

Coordinate

Documentation, logistics and delivery follow-up.

LEARNING ENVIRONMENTS

Laboratory and school furniture.

Durable systems planned around teaching, storage, safety and day-to-day use.

School Furniture

Kindergarten Furniture

Laboratories

Workbenches, storage and specialist layouts.

Classrooms

Desks, chairs and teacher stations.

Libraries

Shelving, reading and study furniture.

Storage

Lockers, cabinets and organised learning spaces.

EARLY LEARNING

Kindergarten and nursery furniture.

Warm, adaptable spaces with child-scaled furniture and cleanable project-selected finishes.

Age appropriate

Scaled tables, chairs and activity furniture.

Safer forms

Rounded profiles and stable construction.

Flexible layouts

Furniture for changing learning activities.

Storage

Accessible shelving and organised play areas.

HIGHER EDUCATION & HEALTHCARE

Furniture for focused environments.

Universities, clinics and hospitals require durable, coordinated and accessible furniture packages.

Universities

Lecture, collaboration and study settings.

Healthcare

Waiting, reception and consultation areas.

Administration

Desks, meeting and storage systems.

Project control

Finishes, samples and quantities confirmed before order.

REGIONAL ENQUIRIES

One brief. A coordinated sourcing route.

Share the furniture category, quantity, dimensions, standards, finish, delivery location and
